Society Management System — 57 Core APIs

Date of Run	6/11/2026, 1:16:18 AM	Test Environment	Local Development
Total Request Calls	109	Database Engine	MongoDB (Mongoose ODM)
Total Assertions	116	Passed Assertions	116
Failed Assertions	0	Status	100% SUCCESS

Detailed Request Logs

1. Register Resident

201 Created

POST http://localhost:3000/api/auth/register

REQUEST PAYLOAD

```
{
  "fullName": "Rahul Sharma",
  "email": "rahul@example.com",
  "phone": "9999999999",
  "password": "Password@123",
  "flatNumber": "A-101",
  "wing": "A",
  "residentType": "Owner"
}
```

RESPONSE BODY

```
{
  "success": true,
  "message": "Resident registered successfully",
  "data": {
    "resident": {
      "fullName": "Rahul Sharma",
      "email": "rahul@example.com",
      "phone": "9999999999",
      "flatNumber": "A-101",
      "wing": "A",
      "floor": "",
      "societyName": "",
      "residentType": "Owner",
      "isVerified": false,
      "profileImage": "",
      "gender": "",
      "dateOfBirth": null,
      "occupation": "",
      "emergencyContact": "",
      "autoPayEnabled": false,
      "autoPayDay": null,
      "autoPayMode": "UPI",
      "_id": "6a29bef8306227ac50752bd0",
